

Test Data

This dataset contains two test samples provided by ChatGPT, an AI language model by OpenAI. These samples include a markdown table and an English text passage, which can be used to test an English-to-Chinese translation software supporting both text and table formats.

Text testing

The quick brown fox jumps over the lazy dog. This pangram contains every letter of the English alphabet at least once. Pangrams are often used to test fonts, keyboards, and other text-related tools. In addition to English, there are pangrams in many other languages. Some pangrams are more difficult to construct due to the unique characteristics of the language.

Table Testing

Fruit	Color	Price (USD)
Apple	Red	1.20
Banana	Yellow	0.50
Orange	Orange	0.80
Strawberry	Red	2.50
Blueberry	Blue	3.00
Kiwi	Green	1.00
Mango	Orange	1.50
Grape	Purple	2.00

Developing safe & responsible AI

Artificial general intelligence has the potential to benefit nearly every aspect of our lives—so it must be developed and deployed responsibly.
